CRYPTOCURRENCY AND FOREX TRADING

There are a several differences between forex and crypto from markets participants to size, structure, accessibility to assets and volatility. Both markets are volatile, however cryptocurrencies tend to experience more volatility than forex pairs. The forex and cryptocurrency market aren't regulated in a similar.

These are interesting times in the Fx market. Last week we saw a fascinating theme, where we could say markets simply have stopped believing central banks. For instance, both the Fed and the ECB were hawkish, yet neither resulted in a stronger domestic currency.

WHAT IS FOREX BOT?

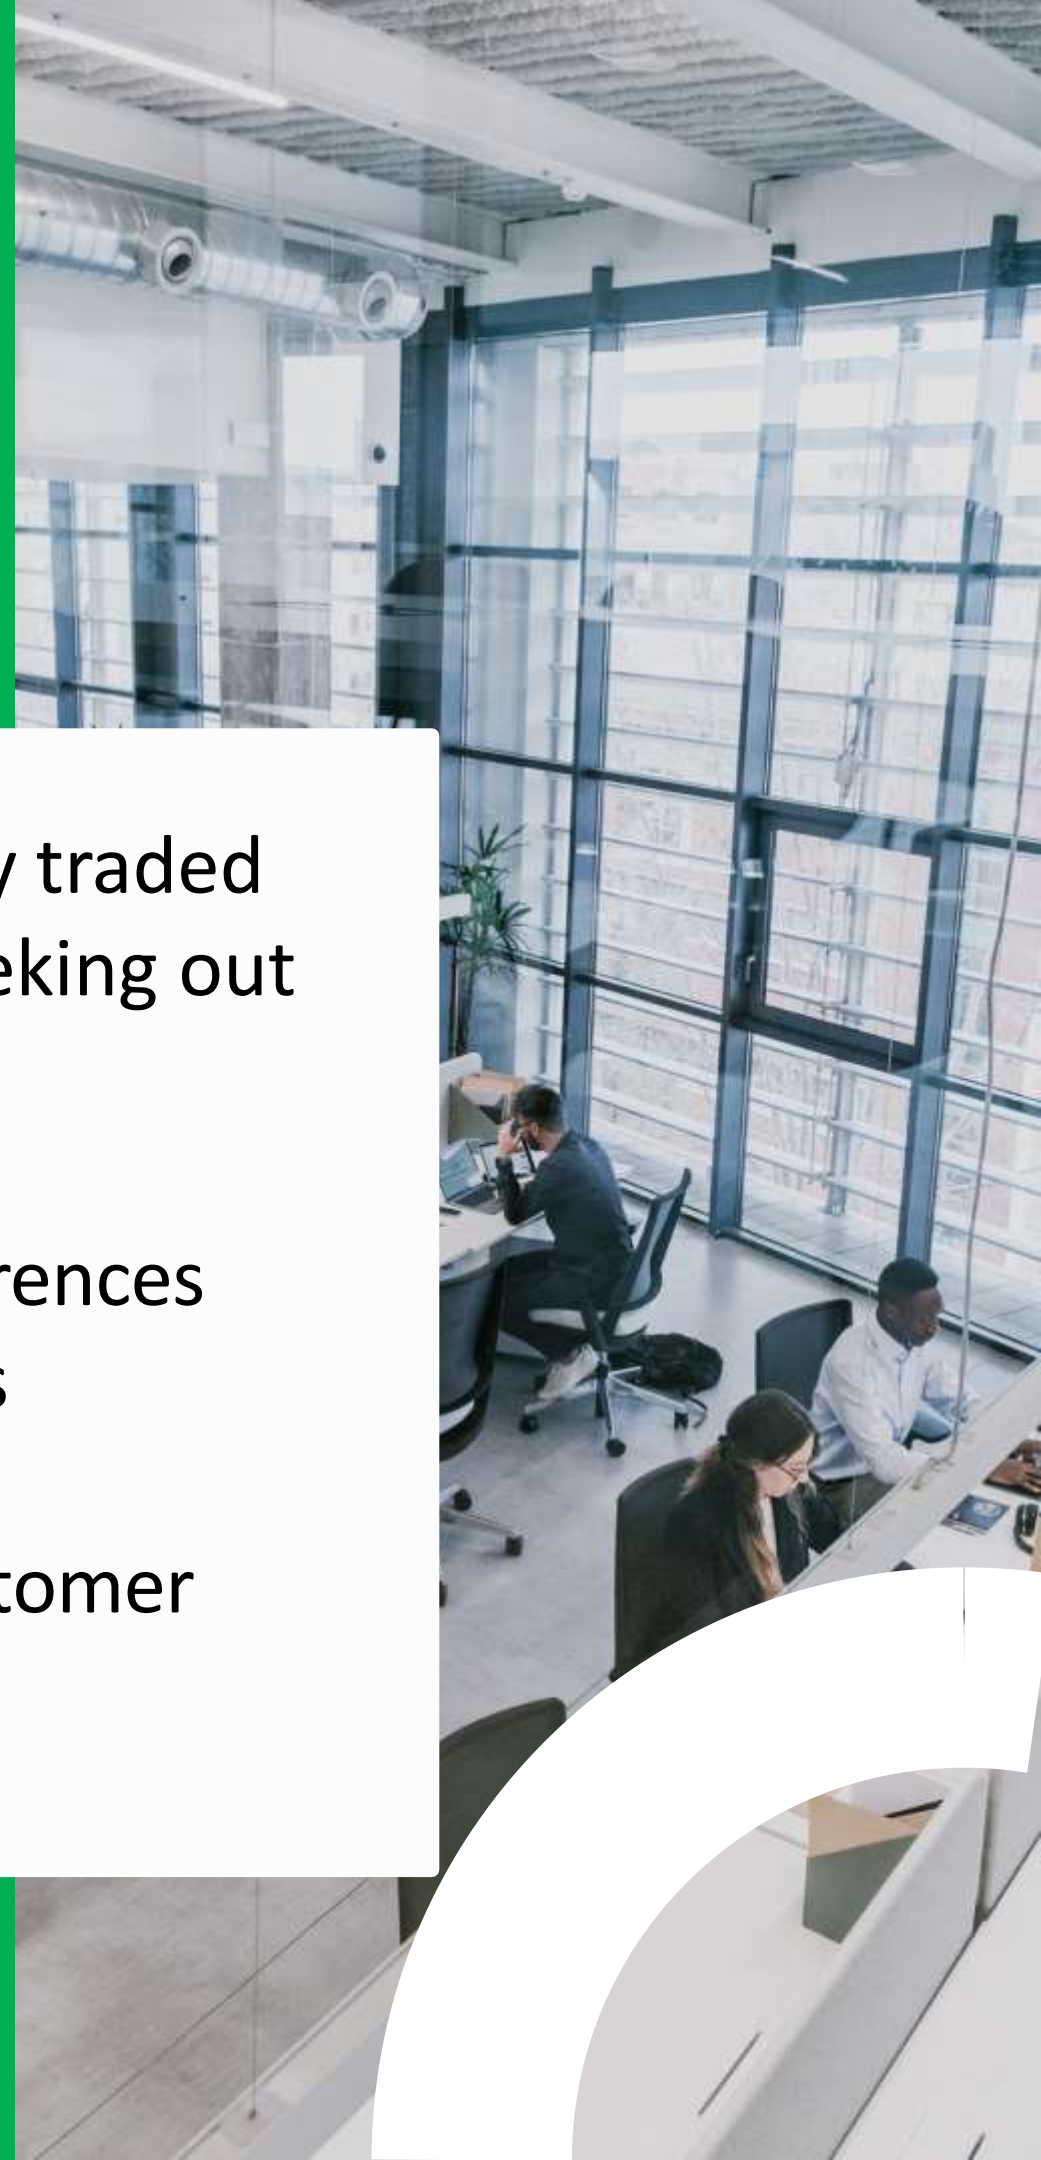

A forex bot is a computer program that is based on a set of forex trading signals which help to define whether to purchase or sell a certain currency pair at any particular time.

Trading bots are available 24/7 to Forex traders, and can easily be bought over the internet. While most forex robots do 'work' in the sense that they are programmed to automatically carry out trades, unfortunately, they are not fool proof so they cannot provide any guarantee of long-term profits. At best, they are a useful tool which can be used by forex traders to help make informed trading decisions.

WHAT IS FOREX BROKER IN FOREX TRADING MARKETS ?

The global foreign exchange (forex) market is the largest and most actively traded financial market in the world. Both beginners and experienced traders seeking out a solid forex broker would be wise to investigate the trading experience.

The breadth and depth of product offerings (currencies, contract for differences (CFDs), indexes, commodities, spread betting, cryptocurrencies, etc.), fees (including spreads and commissions), trading platform(s) (web-based, downloadable software, mobile, charting, and third-party platforms), customer support, trading education and research, and trustworthiness.

BULL CAPITAL NEW INNOVATIONS

BULL CAPITAL COMPANY IS PART OF A LARGE ORGANISATION WHICH HAS SUBSTANTIAL FUNDS, THEN BUSINESS TRANSACTED BY THE TRADING COMPANY WHICH IS ACTING AS THE PRINCIPAL MAY BE SECURED USING A FINANCIAL GUARANTEE SUPPLIED BY THE PARENT COMPANY.

EFFECTIVELY THIS MEANS GIVING THE TRADING COMPANY OPEN CREDIT AND CARE MUST BE TAKEN THAT THE PARENT COMPANY HAS BEEN CAREFULLY SCREENED FOR ITS OWN CREDIT WORTHINESS. SOME TRADERS CAME UNSTUCK IN 1991 WHEN A WELL KNOWN TRADER WITH WHOM PEOPLE TRADED ON PARENT COMPANY GUARANTEE SENT SHOCK WAVES THROUGH THE INDUSTRY AS ITS PARENT COMPANY FALTERED UNDER FRAUD CHARGES.
